.4 Emergency telephone number: +3	32(0)70 245 245
SECTION 2: Hazards identification	
2.1 Classification of the substance or mixtu	
Reproductive toxicity	Category 2
Acute aquatic hazard	Category 1
Long-term aquatic hazard	Category 2
Signal word W	larning
Hazard statements H3	361fd-Suspected of damaging fertility. Suspected of damaging the unborn child.
	400-Very toxic to aquatic life.
	411-Toxic to aquatic life with long lasting effects.
	201-Obtain special instructions before use.
	273-Avoid release to the environment.
	280-Wear protective gloves, protective clothing, face protection.
	308+P313-IF exposed or concerned: Get medical advice or attention. 391-Collect spillage.
	405-Store locked up.
.3 Other hazards	
Results of PBT and vPvB assessment	
	ot applicable
	ot applicable
vPvB: No	
	on ingredients
SECTION 3: Composition/information	on ingredients
SECTION 3: Composition/information	
SECTION 3: Composition/information .1 Substances Components: 2,	6-Dichlorotoluene
SECTION 3: Composition/information a.1 Substances Components: 2, Percent: >5	6-Dichlorotoluene 99.0%(GC)
SECTION 3: Composition/information 5.1 Substances Components: 2, Percent: >9 CAS RN: 11	6-Dichlorotoluene

D0422

G

SECTION 4: First aid measures	
4.1 Description of first aid measure	S
Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention.
Skin contact:	Remove/Take off immediately all contaminated clothing. Gently wash with plenty of soap and water. Get medical advice/attention.
Eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Get medical advice/attention.
Ingestion:	Get medical advice/attention.Rinse mouth.
Protection of first-aiders:	A rescuer should wear personal protective equipment, such as rubber gloves and air-tight goggles.

^{4.2} Most important symptoms and effects, both acute and delayed No data available

4.3 Indication of any immediate medical attention and special treatment needed No data available

SECTION 5: Firefighting measures	
5.1 Extinguishing media	
Suitable extinguishing media:	Dry chemical, foam, water spray, carbon dioxide.
Unsuitable extinguishing media:	Solid streams of water
5.2 Special hazards arising from the	Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume.
substance or mixture	Carbon dioxide, Carbon monoxide, Hydrogen chloride
5.3 Advice for firefighters	Fire-extinguishing work is done from the windward and the suitable fire-extinguishing method according to the surrounding situation is used. Uninvolved persons should evacuate to a safe place. In case of fire in the surroundings: Remove movable containers if safe to do so. When extinguishing fire, be sure to wear personal protective equipment
SECTION 6: Accidental release mea	asures
6.1 Personal precautions, protective equipment and emergency procedures	Use personal protective equipment. Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc
6.2 Environmental precautions	Be careful not to let it flow into rivers, etc., since adverse effects on the environment are concerned
6.3 Methods and materials for containment and cleaning up	Absorb spilled material in a suitable absorbent (e.g. rag, dry sand, earth, saw-dust). In case of large amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations. Remove all sources of ignition. Fire-extinguishing devices should be prepared in case of a fire. Use spark-proof tools and explosion-proof equipment.
6.4 Reference to other sections	For disposal see section 13.
SECTION 7: Handling and storage	
7.1 Precautions for safe handling	Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent generation of vapour or mist. Keep away from flames and hot surfaces. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Wash hands and face thoroughly after handling. Use a closed system if possible. Use a ventilation, local exhaust if vapour or aerosol will be generated. Avoid all contact!
7.2 Conditions for safe storage, including any incompatibilities	Keep container tightly closed. Store in a cool, dark and well-ventilated place. Store locked up. Store away from incompatible materials such as oxidizing agents.
7.3 Specific end use(s)	No further relevant information available.
SECTION 8: Exposure controls/per	sonal protection
8.1 Control parameters	No data available
8.2 Exposure controls	Install a closed system or local exhaust. Also install safety shower and eye bath.
Respiratory protection:	Half or full facepiece respirator, self-contained breathing apparatus(SCBA), supplied air respirator, etc. Use respirators approved under appropriate government standards and follow local and national regulations.
Hand protection:	Impervious gloves.
Eye protection: Skin and body protection:	Safety goggles. A face-shield, if the situation requires. Impervious protective clothing. Protective boots, if the situation requires.

SECTION 9: Physical and chemical properties 9.1 Information on basic physical and chemical properties

9.1 Information on basic physical and ch	nemical properties
Physical state (20°C):	Liquid
Form:	Clear
Colour:	Colorless - Almost colorless
Odour:	No data available
pH:	No data available
Melting point/freezing point:	No data available
Boiling point/range:	198°C
Flash point:	92°C
Evaporation rate(Butyl Acetate=1):	No data available
Flammability(solid, gas):	No data available
Flammability or explosive limits:	
Lower:	No data available
Upper:	No data available
Vapour pressure:	No data available.
Vapour density:	No data available
Relative density:	1.27
Solubility(ies):	
[Water]	No data available
[Other solvents]	No data available
Partition coefficient:	4.29
n-octanol/water:	
Autoignition temperature:	No data available
Decomposition temperature:	No data available
Dynamic Viscosity:	No data available
Kinematic viscosity:	No data available
9.2 Other safety information	No data available

SECTION 10: Stability and reactivity	
10.1 Reactivity	No data available
10.2 Chemical stability	Stable under proper conditions.
10.3 Possibility of hazardous reactions	No special reactivity has been reported.
10.4 Conditions to avoid	Open flame
10.5 Incompatible materials	Oxidizing agents

10.6 Hazardous decomposition products Carbon dioxide, Carbon monoxide, Hydrogen chloride

SECTION 11: Toxicological information		
11.1 Information on toxicological effects		
Acute Toxicity:	No data available	
Skin corrosion/irritation:	No data available	
Serious eye damage/irritation:	No data available	
Respiratory or skin sensitization:	No data available	
Germ cell mutagenicity:	No data available	
Carcinogenicity:		
IARC =	No data available	
NTP =	No data available	
Reproductive toxicity:	No data available	
STOT-single exposure:	No data available	
STOT-repeated exposure:	No data available	
Aspiration hazard:	No data available	

.1 Toxicity	
Fish:	48h LC50:5.57 mg/L (Oryzias latipes)
	96h LC50:2.3 mg/L (Oryzias latipes)
Crustacea:	48h EC50:0.38 mg/L (Daphnia magna)
Algae:	72h EC50:2.7 mg/L (Selenastrum capricornutum)
	72h NOEC:0.37 mg/L (Selenastrum capricornutum)
2.2 Persistence and degradability	0 % (by BOD) , 0 % (by GC)
2.3 Bioaccumulative potential	379 - 567 (conc. 20 ug/L) , 246 - 828 (conc. 2 ug/L)
2.4 Mobility in soil	
Log Pow:	4.29
Soil adsorption (Koc):	No data available
Henry's Law (PaM 3/mol):	No data available
2.5 Results of PBT and vPvB assess	sment
PBT:	Not applicable
vPvB:	Not applicable
2.6 Other adverse effects	No data available
SECTION 13: Disposal considera	itions
3.1 Waste treatment methods Recycle to process, if possible. Cor afterburner and scrubber system. C	nsult your local regional authorities. You may be able to burn in a chemical incinerator equipped with an Observe all federal, state and local regulations when disposing of the substance.

Water Hazard Classes (WGK) : Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No.1907/2006 Class 2 - Hazard to waters Not listed

15.2 Chemical safety assessment

A chemical safety assessment has not been carried out.

SECTION 16: Other information	
Prepared by:	TCI EUROPE N.V.
Issue date:	10/02/2018

This SDS was prepared sincerely on the basis of the information we could obtained, however, any warranty shall not be given regarding the data contained and the assessment of hazards and toxicity. Prior to use, please investigate not only the hazards and toxicity information but also the laws and regulations of the organization, area and country where the products are to be used, which shall be given the first priority. The products are supposed to be used promptly after purchase in consideration of safety. Some new information or amendments may be added afterwards. If the products are to be used far behind the expected time of use or you have any questions, please feel free to contact us. The stated cautions are for normal handling only. In case of special handling, sufficient care should be taken, in addition to the safety measures suitable for the situation. All chemical products should be treated with the recognition of "having unknown hazards and toxicity", which differ greatly depending on the conditions and handling when in use and/or the conditions and duration of storage. The products must be handled only by those who are familiar with specialized knowledge and have experience or under the guidance of those specialists throughout use from opening to storage and disposal. Safe usage conditions shall be set up on each user's own responsibility.
