D0770

2,4-Dimethyl-3-pentanone

| SECTION 4: First aid measures         |   |
|---------------------------------------|---|
| 4.1 Description of first aid measures |   |
| Inhalation:                           | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.                                 |
| Skin contact:                         | Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention.                             |
| Eye contact:                          | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. If eye irritation persists: Get medical advice/attention. |
| Ingestion:                            | Get medical advice/attention if you feel unwell. Rinse mouth.   |
| Protection of first-aiders:           | A rescuer should wear personal protective equipment, such as rubber gloves and air-tight goggles.   |

**<sup>4.2</sup> Most important symptoms and effects, both acute and delayed** No data available

**4.3 Indication of any immediate medical attention and special treatment needed** No data available

| SECTION 5: Firefighting measures  |  |
|---|--|
| 5.1 Extinguishing media   |  |
| Suitable extinguishing media:   | Dry chemical, foam, carbon dioxide.  |
| Unsuitable extinguishing media:   | Water (It may scatter and spread fire.)  |
| 5.2 Special hazards arising from the substance or mixture                                   | Carbon dioxide, Carbon monoxide  |
| 5.3 Advice for firefighters   | Fire-extinguishing work is done from the windward and the suitable fire-extinguishing method according to the surrounding situation is used. Uninvolved persons should evacuate to a safe place. In case of fire in the surroundings: Keep containers cool by spraying with water. Eliminate all ignition sources if safe to do so. When extinguishing fire, be sure to wear personal protective equipment   |
| SECTION 6: Accidental release mea   |  |
| 6.1 Personal precautions, protective equipment and emergency procedures                     | Use extra personal protective equipment (self-contained breathing apparatus). Keep people away from<br>and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be<br>controlled around the leakage area by roping off, etc   |
| 6.2 Environmental precautions   | Prevent product from entering drains   |
| 6.3 Methods and materials for<br>containment and cleaning up                                | Absorb spilled material in dry sand or inert absorbent before recovering it into an airtight container. In case of large amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations. Remove all sources of ignition. Fire-extinguishing devices should be prepared in case of a fire. Use spark-proof tools and explosion-proof equipment.  |
| 6.4 Reference to other sections   | For disposal see section 13.   |
| SECTION 7: Handling and storage   |  |
| 7.1 Precautions for safe handling   | Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent generation of vapour or mist. Keep away from heat/sparks/open flame/hot surfacesNo smoking. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Wash hands and face thoroughly after handling. Use a closed system if possible. Use a ventilation, local exhaust if vapour or aerosol will be generated. Avoid contact with skin, eyes and clothing. |
| 7.2 Conditions for safe storage, including any incompatibilities                            | Keep container tightly closed. Store in a cool, dark and well-ventilated place. Store away from incompatible materials such as oxidizing agents.   |
| 7.3 Specific end use(s)   | No further relevant information available.   |
| SECTION 8: Exposure controls/per  |  |
| 8.1 Control parameters  | No data available  |
| 8.2 Exposure controls   | Install a closed system or local exhaust. Also install safety shower and eye bath.   |
| Respiratory protection:<br>Hand protection:<br>Eye protection:<br>Skin and body protection: | Vapor respirator. Follow local and national regulations.<br>Protective gloves.<br>Safety glasses. A face-shield, if the situation requires.<br>Protective clothing. Protective boots, if the situation requires.   |

| SECTION 9: Physical and chemical properties  |  |  |  |
|--|--|--|--|
| 9.1 Information on basic physical and chemical properties<br>Physical state (20°C): Liquid |  |  |  |

 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Substance of Very High Concern (SVHC) according to the Not listed REACH Regulations (EC) No.1907/2006

15.2 Chemical safety assessment

A chemical safety assessment has not been carried out.

| SECTION 16: Other information |                 |
|-------------------------------|-----------------|
| Prepared by:                  | TCI EUROPE N.V. |
| Issue date:                   | 10/02/2018      |

This SDS was prepared sincerely on the basis of the information we could obtained, however, any warranty shall not be given regarding the data contained and the assessment of hazards and toxicity. Prior to use, please investigate not only the hazards and toxicity information but also the laws and regulations of the organization, area and country where the products are to be used, which shall be given the first priority. The products are supposed to be used promptly after purchase in consideration of safety. Some new information or amendments may be added afterwards. If the products are to be used far behind the expected time of use or you have any questions, please feel free to contact us. The stated cautions are for normal handling only. In case of special handling, sufficient care should be taken, in addition to the safety measures suitable for the situation. All chemical products should be treated with the recognition of "having unknown hazards and toxicity", which differ greatly depending on the conditions and handling when in use and/or the conditions and duration of storage. The products must be handled only by those who are familiar with specialized knowledge and have experience or under the guidance of those specialists throughout use from opening to storage and disposal. Safe usage conditions shall be set up on each user's own responsibility.
