CI TCI EUROPE N.V.

SAFETY DATA SHEET

According to 1907/2006/EC, Article 31

Revision number: 1.1		Revision date: 10/03/2018	
SECTION 1: Identification of the	substance/mixture and of the company/undertaking		
1.1 Product identifiers			
Product name:	Ethylene Glycol Monovinyl Ether (stabilized with KOH)		
Product code:	E0518		
1.2 Relevant identified uses of the sul Identified uses:	bstance or mixture and uses advised against Reagents.		
1.3 Details of the supplier of the safet Supplier:	y data sheet		
TCI EUROPE N.V. Boerenveldseweg 6 Haven 1063			
B-2070 Zwijndrecht Telephone: +32(0)3 735 07 0 E-mail: sales-eu@tcichemica			
	15.0011		
1.4 Emergency telephone number:	+32(0)70 245 245		
SECTION 2: Hazards identificatio	n		
2.1 Classification of the substance or Flammable liquids	mixture Category 3		
Pictograms or hazard symbols			
Signal word	Warning		
Hazard statements	H226-Flammable liquid and vapour.		
Precautionary statements	P210-Keep away from heat/sparks/open flames/hot surfaces I	No smoking.	
•	P233-Keep container tightly closed.	-	
	P240-Ground/bond container and receiving equipment.		
	P280-Wear protective gloves, eye protection.		
	P303+P361+P353-IF ON SKIN (or hair): Take off immediately a	II contaminated clothing. Rinse skin	
	with water or shower.		
2.3 Other hazards	P403+P235-Store in a well-ventilated place. Keep cool.		
Results of PBT and vPvB assessme	May cause polimerization.		
PBT:	Not applicable		
vPvB:	Not applicable		
SECTION 3: Composition/informa	ation on ingredients		
3.1 Substances	Ethylene Glycol Monovinyl Ether (stabilized with KOH)		
Components:			

Components:	Ethylene Glycol Monovinyl Ether (stabilized with KOH)	
Percent:	>98.0%(GC)	
CAS RN:	764-48-7	
EC-No:	212-124-4	
Synonyms:	2-Vinyloxyethanol (stabilized with KOH) , Vinyl Cellosolve (stabilized with KOH) , Vinyl Glycol (stabilized with KOH)	
Chemical Formula:	C4H8O2	

E0518 Ethylene Glycol Monovinyl Ether Page 1 of 5 (stabilized with KOH)

SECTION 4: First aid measures	
4.1 Description of first aid measures	
Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.
Skin contact:	Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention.
Eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion:	Get medical advice/attention if you feel unwell. Rinse mouth.
Protection of first-aiders:	A rescuer should wear personal protective equipment, such as rubber gloves and air-tight goggles.

- **4.2 Most important symptoms and effects, both acute and delayed** No data available
- **4.3 Indication of any immediate medical attention and special treatment needed** No data available

SECTION 5: Firefighting measures		
5.1 Extinguishing media Suitable extinguishing media:	Dry chemical, foam, water in large amounts, carbon dioxide.	
5.2 Special hazards arising from the substance or mixture	This substance may polimerize explosively when heated or involved in a fire. Container may explode when heated. Combat fire from a sheltered position. Carbon dioxide, Carbon monoxide	
5.3 Advice for firefighters	Fire-extinguishing work is done from the windward and the suitable fire-extinguishing method according to the surrounding situation is used. Uninvolved persons should evacuate to a safe place. In case of fire in the surroundings: Keep containers cool by spraying with water. Eliminate all ignition sources if safe to do so. When extinguishing fire, be sure to wear personal protective equipment	
SECTION 6: Accidental release mea	asures	
6.1 Personal precautions, protective equipment and emergency procedures	Use extra personal protective equipment (self-contained breathing apparatus). Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc	
6.2 Environmental precautions	Prevent product from entering drains	
6.3 Methods and materials for containment and cleaning up	Absorb spilled material in dry sand or inert absorbent before recovering it into a covered container. In case of large amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations. Remove all sources of ignition. Fire-extinguishing devices should be prepared in case of a fire. Use spark-proof tools and explosion-proof equipment.	
6.4 Reference to other sections	For disposal see section 13.	
SECTION 7: Handling and storage		
7.1 Precautions for safe handling	Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent generation of vapour or mist. Keep away from heat/sparks/open flame/hot surfacesNo smoking. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Wash hands and face thoroughly after handling. Use a closed system if possible. Use a ventilation, local exhaust if vapour or aerosol will be generated. Avoid contact with skin, eyes and clothing.	
7.2 Conditions for safe storage, including any incompatibilities	Keep container tightly closed. Store in a cool, dark and well-ventilated place. Store away from incompatible materials such as oxidizing agents.	
7.3 Specific end use(s)	No further relevant information available.	
SECTION 8: Exposure controls/pers	sonal protection	
8.1 Control parameters	No data available	
8.2 Exposure controls	Install a closed system or local exhaust. Also install safety shower and eye bath.	
Respiratory protection: Hand protection: Eye protection: Skin and body protection:	Vapor respirator. Follow local and national regulations. Protective gloves. Safety glasses. A face-shield, if the situation requires. Protective clothing. Protective boots, if the situation requires.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and c	
Physical state (20°C):	Liquid
Form:	Clear
Colour:	Colorless - Very pale yellow
Odour:	No data available
pH:	No data available
Melting point/freezing point:	No data available
Boiling point/range:	143°C
Flash point:	49°C
Evaporation rate(Butyl Acetate=1):	No data available
Flammability(solid, gas):	No data available
Flammability or explosive limits:	
Lower:	No data available
Upper:	No data available
Vapour pressure:	No data available.
Vapour density:	No data available
Relative density:	0.98
Solubility(ies):	
[Water]	No data available
[Other solvents]	No data available
Partition coefficient:	-0.55
n-octanol/water:	
Autoignition temperature:	No data available
Decomposition temperature:	No data available
Dynamic Viscosity:	No data available
Kinematic viscosity:	No data available
9.2 Other safety information	No data available

SECTION 10: Stability and reactivity		
10.1 Reactivity	No data available	
10.2 Chemical stability	Polymerization may occur under the influences of heat, light or on contact with polymerization initiators such as peroxides etc.	
10.3 Possibility of hazardous reactions	No special reactivity has been reported.	
10.4 Conditions to avoid	Heat, Spark, Open flame, Static discharge, Light	
10.5 Incompatible materials	Oxidizing agents	

10.6 Hazardous decomposition products Carbon dioxide, Carbon monoxide

SECTION 11: Toxicological information 11.1 Information on toxicological effects

1.1 Information on toxicological effects	
Acute Toxicity:	orl-rat LD50:3200 mg/kg
	ihl-mus LC50:16200 mg/m ³
Skin corrosion/irritation:	No data available
Serious eye damage/irritation:	No data available
Respiratory or skin sensitization:	No data available
Germ cell mutagenicity:	No data available
Carcinogenicity:	
IARC =	No data available
NTP =	No data available
Reproductive toxicity:	No data available
STOT-single exposure:	No data available
STOT-repeated exposure:	No data available
Aspiration hazard:	No data available
RTECS Number:	KM5495000

SECTION 12: Ecological information		
12.1 Toxicity	·	
Fish:	No data available	
Crustacea:	No data available	
Algae:	No data available	
12.2 Persistence and degradability	No data available	
12.3 Bioaccumulative potential	3	
12.4 Mobility in soil		
Log Pow:	-0.55	
Soil adsorption (Koc):	1	
Henry's Law (PaM ³/mol):	2.8 x 10 ⁻²	
12.5 Results of PBT and vPvB assess		
PBT:	Not applicable	
vPvB:	Not applicable	
12.6 Other adverse effects	No data available	
SECTION 13: Disposal considerat	ions	
13.1 Waste treatment methods Recycle to process, if possible. Cons afterburner and scrubber system. Ot	sult your local regional authorities. You may be able to burn in a chemical incinerator equipped with an oserve all federal, state and local regulations when disposing of the substance.	
13.1 Waste treatment methods Recycle to process, if possible. Cons	sult your local regional authorities. You may be able to burn in a chemical incinerator equipped with an oserve all federal, state and local regulations when disposing of the substance.

You may be able to burn in a chemical incinerator equipped with an observe all federal, state and local regulations when disposing of the substance.	

Marine	pollutant	

14.5 Environmental hazards

14.6 Special precautions for user

No data available

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No.1907/2006 Not listed

15.2 Chemical safety assessment

A chemical safety assessment has not been carried out.

SECTION 16: Other information	
Prepared by:	TCI EUROPE N.V.
Issue date:	10/03/2018

This SDS was prepared sincerely on the basis of the information we could obtained, however, any warranty shall not be given regarding the data contained and the assessment of hazards and toxicity. Prior to use, please investigate not only the hazards and toxicity information but also the laws and regulations of the organization, area and country where the products are to be used, which shall be given the first priority. The products are supposed to be used promptly after purchase in consideration of safety. Some new information or amendments may be added afterwards. If the products are to be used for behind the expected time of use or you have any questions, please feel free to contact us. The stated cautions are for normal handling only. In case of special handling, sufficient care should be taken, in addition to the safety measures suitable for the situation. All chemical products should be treated with the recognition of storage. The products must be handled only by those who are familiar with specialized knowledge and have experience or under the guidance of those specialists throughout use from opening to storage and disposal. Safe usage conditions shall be set up on each user's own responsibility.
