# SAFETY DATA SHEET

According to 1907/2006/EC, Article 31

	Revision number: 2	Revision date: 01/08/201
	e substance/mixture and of the company/undertaking	
.1 Product identifiers		
Product name:	Zirconium(IV) Butoxide (ca. 80% in 1-Butanol)	
Product code:	Z0016	
2 Relevant identified uses of the s Identified uses:	substance or mixture and uses advised against Reagents.	
3 Details of the supplier of the saf	ety data sheet	
Supplier: TCI EUROPE N.V.		
Boerenveldseweg 6		
Haven 1063		
B-2070 Zwijndrecht		
Telephone: +32(0)3 735 07		
E-mail: sales-eu@tcichemi	cals.com	
4 Emergency telephone number:	+32(0)70 245 245	
ECTION 2: Hazards identificat	ion	
1 Classification of the substance		
Flammable liquids	Category 3	
Acute toxicity (Oral) Skin corrosion/irritation	Category 4	
Serious eye damage/eye irritation	on Category 2 Category 1	
Specific target organ toxicity - S		areatic offacts
	Repeated exposure [Category 3] Central nervous system, Au	
Signal word	Danger	
Hazard statements	0	
	nzzo-riammable liquid and vapour.	
	H226-Flammable liquid and vapour. H302-Harmful if swallowed.	
	H302-Harmful if swallowed. H315-Causes skin irritation.	
	H302-Harmful if swallowed. H315-Causes skin irritation. H318-Causes serious eye damage.	
	H302-Harmful if swallowed. H315-Causes skin irritation. H318-Causes serious eye damage. H372-Causes damage to organs through prolonged or rep	eated exposure : Central nervous system
	H302-Harmful if swallowed. H315-Causes skin irritation. H318-Causes serious eye damage. H372-Causes damage to organs through prolonged or rep Auditory system	eated exposure : Central nervous system
	H302-Harmful if swallowed. H315-Causes skin irritation. H318-Causes serious eye damage. H372-Causes damage to organs through prolonged or rep Auditory system H335-May cause respiratory irritation.	eated exposure : Central nervous system
Precautionary statements	H302-Harmful if swallowed. H315-Causes skin irritation. H318-Causes serious eye damage. H372-Causes damage to organs through prolonged or rep Auditory system	eated exposure : Central nervous system

4.1 Description of first aid measures Inhalation:       Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a PO CENTER or doctor/physician if you feel unwell.		
4.1 Description of first aid measures Inhalation:       Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a PO CENTER or doctor/physician if you feel unwell.		
Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a PO CENTER or doctor/physician if you feel unwell.		
CENTER or doctor/physician if you feel unwell.		
Skin contact: Remove/Take off immediately all contaminated clothing. Gently wash with plenty of soap and	SON	
skin irritation or rash occurs: Get medical advice/attention.	water. If	
Eye contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy	o do.	

Continue rinsing. If eye irritation persists: Get medical advice/attention. Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.

A rescuer should wear personal protective equipment, such as rubber gloves and air-tight goggles.

Protection of first-aiders:

4.2 Most important symptoms and effects, both acute and delayed

No data available

Ingestion:

**4.3 Indication of any immediate medical attention and special treatment needed** No data available

SECTION 5: Firefighting measures	
5.1 Extinguishing media	
Suitable extinguishing media:	Dry chemical, foam, water spray, carbon dioxide.
Unsuitable extinguishing media:	Solid streams of water
5.2 Special hazards arising from the substance or mixture	Carbon dioxide, Carbon monoxide
5.3 Advice for firefighters	Fire-extinguishing work is done from the windward and the suitable fire-extinguishing method according to the surrounding situation is used. Uninvolved persons should evacuate to a safe place. In case of fire in the surroundings: Keep containers cool by spraying with water. Eliminate all ignition sources if safe to do so. When extinguishing fire, be sure to wear personal protective equipment

SECTION 6: Accidental release mea	asures
6.1 Personal precautions, protective equipment and emergency procedures	Use extra personal protective equipment (self-contained breathing apparatus). Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc
6.2 Environmental precautions	Prevent product from entering drains
6.3 Methods and materials for containment and cleaning up	Absorb spilled material in dry sand or inert absorbent before recovering it into an airtight container. In case of large amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations. Remove all sources of ignition. Fire-extinguishing devices should be prepared in case of a fire. Use spark-proof tools and explosion-proof equipment.
6.4 Reference to other sections	For disposal see section 13.

	in 1-Butanol)	

SECTION 7: Handling and storage	
7.1 Precautions for safe handling	Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent generation of vapour or mist. Keep away from heat/sparks/open flame/hot surfacesNo smoking. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Wash hands and face thoroughly after handling. Use a closed system if possible. Use a ventilation, local exhaust if vapour or aerosol will be generated. Avoid contact with skin, eyes and clothing.
7.2 Conditions for safe storage, including any incompatibilities	Keep container tightly closed. Store in a cool, dark and well-ventilated place. Store under inert gas. Protect from moisture. Store locked up. Store away from incompatible materials such as oxidizing agents. Moisture-sensitive
7.3 Specific end use(s)	No further relevant information available.

### SECTION 12: Ecological information

12.1 Toxicity	
Fish:	No data available
Crustacea:	No data available
Algae:	No data available
12.2 Persistence and degradability	No data available
12.3 Bioaccumulative potential	No data available
12.4 Mobility in soil	
Log Pow:	No data available
Soil adsorption (Koc):	No data available
Henry's Law (PaM ³/mol):	No data available
12.5 Results of PBT and vPvB assess	sment
PBT:	Not applicable
vPvB:	Not applicable
12.6 Other adverse effects	No data available

SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Γ

Recycle to process, if possible. Consult your local regional authorities. You may be able to burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe all federal, state and local regulations when disposing of the substance.

#### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out.

SECTION 16: Other information	
Prepared by:	TCI EUROPE N.V.
Issue date:	01/08/2019

This SDS was prepared sincerely on the basis of the information we could obtained, however, any warranty shall not be given regarding the data contained and the assessment of hazards and toxicity. Prior to use, please investigate not only the hazards and toxicity information but also the laws and regulations of the organization, area and country where the products are to be used, which shall be given the first priority. The products are supposed to be used promptly after purchase in consideration of safety. Some new information or amendments may be added afterwards. If the products are to be used far behind the expected time of use or you have any questions, please feel free to contact us. The stated cautions are for normal handling only. In case of special handling, sufficient care should be taken, in addition to the safety measures suitable for the situation. All chemical products should be treated with the recognition of "having unknown hazards and toxicity", which differ greatly depending on the conditions and handling when in use and/or the conditions and duration of storage. The products must be handled only by those who are familiar with specialized knowledge and have experience or under the guidance of those specialists throughout use from opening to storage and disposal. Safe usage conditions shall be set up on each user's own responsibility.

### End of Safety Data Sheet
